

I-405 Renton Stage 2 Widening Project

Benson Road South nightly closures

What's happening on Benson Road South in Renton?

As part of the I-405/I-5 to SR 169 Stage 2 – Widening and SR 515 Interchange Project, WSDOT crews continue construction along Benson Road South.

The work requires closures of Benson Road South and is completed at night to minimize the impact to the daytime commute and to get the work done earlier. The closure also allows crews to safely and efficiently pave, relocate utilities, complete retaining walls, and build new bridge structures for the new I-405 southbound off-ramp to Talbot Road.

When will this happen?

Beginning Friday, March 19, crews will close Benson Road South nightly (Monday – Friday) for up to 8 weeks, between 8:00 p.m. and 5:00 a.m.

Where will this happen?

Benson Road South will close between Renton City Hall and north of Eagle Ridge Drive. To access businesses and residences along Benson Road during this closure, use the Puget Drive/Talbot Road (SR 515)/Grady Way S. detour. (See detour map on right).
